- Pond or Lake
- Traffic Calming
- Historic Interpretation
- Stormwater Treatment

Parking Count

HARD SURFACE PARKING:	217
LAYBY PARKING:	52
HIC PARKING:	12
TOTAL	280

Plan Features:

- Reorganized pedestrian and vehicular circulation designed to separate vehicles and pedestrians, as much as possible.
- Improved and organized parking areas placed in several locations around the park with grass pavers and bio-filters to reduce and treat runoff.
- Traffic calming measures on Charlie Vettner Park Road and Mary Dell Lane including a roundabout at the park entrance.
- A new picnic shelter overlooking the ballfield near the existing family shelter.
- Relocated and improved tennis courts in an active recreation area by the existing ballfield.
- An improved ballfield and multi-use field for multiple sports.
- Two new regulation sized basketball courts.
- A spray play area and playground improvements.
- A new restroom in a central location near the playground.
- A one-mile long paved walk around the interior of the park with multiple loops totaling one & two-thirds miles.
- An open field area for soaring planes, a cross country course, open sports practice, and kite flying.
- A new shelter and parking area overlooking the upper lake.
- A new shelter and restroom in place of the existing maintenance barn with improved parking for disc golf.
- A hiking trail around the perimeter of the park and upper lake.
- A formalized balloon launch area.
- A new maintenance facility in the southwest corner of the park.
- Green infrastructure practices including grass pavers, bio-filtration areas and stormwater basins to treat the runoff from the roadways and parking lots.
- Erosion control measures in the eroded swales and ditches to restore the ground surface and slow erosion.
- A wildlife habitat corridor in the open swale and lakes on the west side of the park.

Legend of Interpretive Features:

- ① Historic Spring and Quarry
- ② Miller House
